

Don't let rising water wash away your earnings.

Reduce your risk of flood
with Affiliated FM's online training course,
Reducing the Flood Risk.

Flood is the most costly natural hazard in the world and most flood loss is incurred at locations where the exposure is easily identified. But, while flooding at these locations is inevitable, most flood-related property loss is preventable.

To register for the course, visit <http://training.affiliatedfm.com>.

It's free, takes less than one hour to complete, and it can be accessed 24 hours a day, seven days a week from any computer connected to the Internet! *No downloads required!*

When you complete this course, you will be able to:

- Reduce the likelihood of a major flood loss
- Avoid and limit flood damage at your facility
- Evaluate the degree of risk at your site
- Develop planning strategies to limit your flood exposure in new and existing facilities
- Make simple changes to keep valuable assets in your facility high and dry

Designed for plant managers and personnel responsible for reducing the likelihood of a major flood loss, the course can be incorporated into in-house training programs or used individually. There's no limit to the number of employees you can register. Best of all, managers can track the performance and progress of those taking the course!
